Projects

Cosmetic Store Web Application — lordglory.in *MERN Stack Developer*
Technologies Used: React.js, Node.js, Express.js, MongoDB

- Developed a full-stack production-ready web application for an online cosmetics brand.
 - Implemented secure authentication with role-based access for users, agents, and admins.
 - Built a RESTful API to handle product management, user registration, cart, and orders.
 - Integrated payment gateways including PhonePe for seamless checkout.
 - Designed and developed an intuitive admin dashboard and agent dashboard for managing inventory and orders.
 - Implemented agent-based coupon systems and real-time commission tracking.
-
